SUMMARY

I am a web programmer with over 3 years of experience in building and developing various types of websites—from simple landing pages to large-scale web applications. My main focus is on creating efficient, responsive, and maintainable solutions by following modern web development best practices. Skilled in technologies such as HTML, CSS, PHP, JavaScript, and TypeScript, I also work with frameworks like Vue, and Node.js, and have backend experience with Laravel and NestJS. With a strong passion for learning and attention to detail, I always strive to deliver high-quality work tailored to users' needs.
